

INSTITUTIONAL PARTNERSHIP & PROGRAMME BRIEFING DECK

Where articulate voices meet scientific inquiry.

A flagship annual secondary school championship in Surulere, Lagos uniting **Parliamentary & Science/Tech Policy Debate**, **Multi-Disciplinary STEM Olympiad Rounds**, and a live **STEM Innovation Showcase**, sustained by the year-round **Young Leaders Network & STEM Labs**.

TARGET: SECONDARY SCHOOLS IN SURULERE LGA & INVITED LAGOS SCHOOLS

GOVERNANCE: CHILD SAFEGUARDING, LAB SAFETY & PRIVACY FIRST

01 / COMPETITIVE ARENAS
Debate • STEM Olympiad • Lab Showcase

02 / POST-EVENT PATHWAY
Young Leaders Network & STEM Labs

03 / HOST VENUE & DATES
Surulere, Lagos (Dates & Venue TBC)

04 / SLIDE INDEX
SLIDE 01 OF 10 // COVER MONOGRAPH

Bridging the divide between civic articulation and scientific rigor.

Modern urban challenges require young citizens who can both engineer rigorous technical systems and defend their ethical and civic consequences.

GAP-01 / SILOED ACADEMIC DISCIPLINES

HUMANITIES VS. SCIENCES

Debaters rarely engage with engineering; builders rarely debate policy.

Secondary school tournaments traditionally separate literary/debate societies from science clubs. Students seldom evaluate emerging technology ethics, climate resilience, and public health policy alongside quantitative STEM problem-solving.

GAP-02 / THEORY WITHOUT APPLIED PROTOTYPING

CLASSROOM TO LAB GAP

High-potential science students lack structured prototype arenas.

While students master textbook formulas for exams, few platforms challenge school teams to design, build, and orally defend working robotics, renewable energy, or software prototypes tailored to Surulere and Lagos communities.

GAP-03 / EPHEMERAL ONE-DAY COMPETITIONS

POST-EVENT DROPOFF

Conventional school competitions end when trophies are handed out.

Without a structured post-tournament fellowship, standout teenage speakers, Olympiad scholars, and student inventors lose momentum rather than compounding their skills through year-round mentorship and STEM laboratory bootcamps.

FIG 1.1 / FACULTY-SUPERVISED DEBATE & STEM PREPARATION IN SURULERE

THE STDSC INSTITUTIONAL RESPONSE

One flagship championship + one year-round STEM & leadership pipeline.

STDSC unites humanities and applied sciences under a single school delegation workflow, governed by strict child safeguarding, laboratory safety, and data protection standards.

3 CHAMPIONSHIP TRACKS • 5 OLYMPIAD DOMAINS • YEAR-ROUND YLN LABS

§ 02 / PROGRAMME ARCHITECTURE

Three competitive arenas and a year-round laboratory fellowship.

Schools may enter a single division or field a complete delegation across Debate, the STEM Olympiad, and the Innovation Showcase.

TRK-01 / PARLIAMENTARY & POLICY CHAMBER

PRELIMINARIES → KNOCKOUTS

Debate & Science/Tech Policy Motions

School squads clash across prepared and impromptu motions spanning civic governance, economic policy, artificial intelligence ethics, climate adaptation, and public health.

RUBRIC: CONTENT (40%) • STYLE (40%) • STRATEGY (20%)

TRAINED ADJUDICATION PANELS

TRK-02 / QUANTITATIVE ARENA

5 STEM DOMAINS

Competitive STEM Quiz & Olympiad

Collaborative written analytical qualifiers followed by high-tempo live auditorium buzzer finals testing conceptual mastery and rapid computation.

MATHEMATICS | PHYSICS | CHEMISTRY | BIOLOGY | COMPUTING

STAGE A: WRITTEN QUALIFIER → STAGE B: LIVE STAGE BUZZER FINALS

TRK-03 / PROTOTYPE EXHIBITION

APPLIED ENGINEERING LAB

STEM Innovation & Project Showcase

Student teams design, build, and defend working hardware, robotics, clean energy, or civic software prototypes solving real problems in Surulere and Lagos.

SCIENTIFIC RIGOR | COMMUNITY RELEVANCE | ORAL DEFENSE

STRICT LAB SAFETY COMPLIANCE: ZERO HAZARDOUS CHEMICALS OR OPEN FLAMES

FELLOWSHIP / POST-CHAMPIONSHIP PIPELINE

YEAR-ROUND COHORT

Young Leaders Network & STEM Labs

Standout debaters, Olympiad finalists, and prototype builders are inducted into an ongoing fellowship featuring coding & robotics workshops, policy seminars, and mentorship with Nigerian scientists and civic leaders.

PILLARS: STEM LABS • POLICY SEMINARS • MENTORSHIP • AMBASSADORS

SUPERVISED SAFEGUARDED SESSIONS

Chamber debate adjudication and multi-disciplinary STEM Olympiad.

Transparent scoring criteria and curriculum-calibrated analytical testing ensure fairness across all participating schools.

TRK–01 // PARLIAMENTARY & TECH POLICY DEBATE

CHAMBER RUBRIC

Evidence-based argumentation on civic & scientific motions.

Teams compete in preliminary seeding rounds followed by knockout brackets across prepared and impromptu motions covering governance, AI ethics, climate policy, and public health.

FIG 3.1 / THREE–MEMBER ADJUDICATION PANEL & TIMED FLOOR SPEECH

01 / CONTENT (40%)

Analytical depth, logical rigor, factual accuracy, and direct engagement with scientific or policy evidence.

02 / STYLE (40%)

Clarity of expression, rhetorical poise, vocal pacing, and persuasive delivery without jargon.

03 / STRATEGY (20%)

Speech structure, prioritisation of key clashes, role fulfilment, and disciplined time management.

TRK–02 // STEM QUIZ & ANALYTICAL OLYMPIAD

5 CORE DISCIPLINES

Collaborative problem-solving and live buzzer finals.

Tests secondary school squads across **Mathematics, Physics, Chemistry, Biology, and Computing** under timed analytical and rapid-response conditions.

FIG 3.2 / COLLABORATIVE COMPUTATION & STAGE BUZZER FINALS

STAGE A / QUALIFIER

Written multi-step analytical problems completed collaboratively by school squads to establish seeding.

STAGE B / BUZZER FINALS

Live stage rounds featuring timed computations, team-conferred bonuses, and data interpretation.

STAGE C / SYLLABUS FIT

Calibrated to Nigerian secondary school science & mathematics curricula (exact class bands TBC).

Applied prototype exhibition and the Young Leaders Network & STEM Labs.

Translating classroom science into working prototypes and inducting standout talent into a year-round mentorship cohort.

TRK-03 // STEM INNOVATION & PROJECT SHOWCASE

PROTOTYPE EXHIBITION

Hardware, robotics & software built for urban communities.

Teams exhibit working prototypes addressing clean energy, smart agriculture, environmental monitoring, robotics, or civic/educational technology in Surulere.

FIG 4.1 / PROTOTYPE INSPECTION & TECHNICAL CROSS-EXAMINATION BY JUDGES

01 / SCIENTIFIC RIGOR
Sound engineering design, reproducible methodology, and clean architecture.

02 / COMMUNITY RELEVANCE
Direct applicability to practical challenges in Lagos schools or households.

03 / PROTOTYPE & SAFETY
Working demo; strict ban on hazardous chemicals, open flames, or high voltage.

04 / ORAL DEFENSE
Clarity of team pitch and ability to answer technical cross-examination.

YLN-04 // YOUNG LEADERS NETWORK & STEM LABS

POST-EVENT FELLOWSHIP

Sustaining talent beyond tournament day.

Standout speakers, Olympiad finalists, and student inventors are inducted into a safeguarded year-round cohort for technical incubation and leadership development.

FIG 4.2 / INTERACTIVE MENTORSHIP ROUNDTABLE & STEM LAB FELLOWSHIP

LAB-01 / STEM WORKSHOPS
Practical coding, robotics prototyping, data literacy, and experimental design.

LAB-02 / POLICY SEMINARS
Masterclasses in public policy analysis, scientific communication, and ethics.

LAB-03 / MENTORSHIP CIRCLES
Structured group mentoring with engineers, scientists, educators, and scholars.

LAB-04 / AMBASSADOR PATHS
Incubate community projects, refine prototypes, and support future STDSC editions.

§ 05 / SECONDARY SCHOOL DELEGATION WORKFLOW

Built around school principals, faculty coordinators, and coaches.

A streamlined, institutional onboarding sequence designed for secondary schools across Surulere LGA and invited Lagos districts.

STEP 01 // INTAKE

Express School Interest

School principal or designated teacher coordinator submits an expression of interest indicating preferred championship tracks.

STEP 02 // PREPARATION

Coordinator Briefing Pack

Organisers issue the competition rulebook, prepared debate motions, STEM Olympiad syllabus topics, and prototype safety checklists.

STEP 03 // GATED CONSENT

Safeguarding & Squad Roster

Once portal authentication and formal policies are live, coordinators complete private squad nominations and verifiable guardian consent.

STEP 04 // COMPETITION

Tournament & YLN Induction

Squads attend orientation clinics, compete across STDSC stages, and connect standout students with the Young Leaders Network & STEM Labs.

REQ-01 / SCHOOL COMMITMENTS

What Participating Schools Provide

01. Designated faculty coordinator (Debate coach and/or STEM teacher).

02. Student squad nominations within published age & eligibility bands.

03. Verifiable parental/guardian consent (stored privately, never public).

04. Adherence to Code of Conduct, Safeguarding & Prototype Safety rules.

SINGLE-DIVISION OR FULL 3-TRACK ENTRY SUPPORTED

REQ-02 / ACADEMIC SUPPORT PACK

What STDSC Provides to Schools

01. Curated Debate Briefing Pack with sample motions & scoring rubrics.

02. STEM Olympiad syllabus guide & analytical practice problem sets.

03. Innovation Showcase pitch template & lab safety specification sheet.

04. Post-event certificates, institutional recognition & YLN pathways.

ACCESSIBLE PARTICIPATION PRINCIPLES

FIG 5.1 / UNIFIED TEACHER COORDINATOR WORKFLOW FOR LAGOS SCHOOLS

Governance-first architecture: zero public student PII.

The welfare of young participants is paramount. Technical and operational gates prevent premature data collection.

GOV-01 // MANDATORY PRE-LIVE SAFEGUARDING CHECKLIST

CHILD PROTECTION

Institutional Safeguarding & Prototype Safety Covenant

No live processing of student personal data or in-person tournament hosting occurs without complete sign-off across six foundational governance pillars:

01 / SAFEGUARDING POLICY
Written policy covering in-person & online interactions plus a named Safeguarding Lead.

02 / SUPERVISION RATIOS
Mandatory adult supervision ratios and binding Code of Conduct for all staff, coaches & judges.

03 / GUARDIAN CONSENT
Documented lawful basis for minors' data, parental permission workflow & strict media rules.

04 / PROTOTYPE LAB SAFETY
Physical STEM showcase screening: no hazardous chemicals, open flames, or unshielded voltage.

05 / DATA MINIMISATION
Collect only strictly necessary fields; defined retention schedule & anonymisation protocol.

06 / PUBLIC-SAFE RESULTS
Results published at school/team aggregate level; student PII is never exposed on public pages.

OWNERSHIP: ORGANISING COMMITTEE + LEGAL/ADVISORY SIGN-OFF REQUIRED PRIOR TO PHASE 3

EXPLICIT PRODUCTION GATE // NON-NEGOTIABLE POLICY

> "Production student registration remains disabled until formal Safeguarding Policy, Privacy Notice, Authentication, and Row-Level Security (RLS) are signed off."

The public website and admin readiness shell operate purely for institutional information, school expressions of interest, and sponsor enquiries until all legal and technical controls are verified.

GOV-02 // DIGITAL PLATFORM & SECURITY CONTROLS

NEXT.JS 15 + SUPABASE

PUBLIC WEB PORTAL
Next.js 15 App Router, TypeScript, Tailwind CSS v4 on Vercel. Zero unauthenticated access to application data.

AUTHENTICATED ADMIN & RLS
Planned Supabase backend with strict Role-Based Access Control (RBAC), Row-Level Security, and audit logs.

SERVER ACTIONS ONLY FOR MUTATIONS • ENVIRONMENT SECRETS ISOLATED • ZERO PUBLIC PII ENDPOINTS

§ 07 / CORPORATE & INSTITUTIONAL PATRONAGE

Indicative sponsorship schedule and targeted STEM contributions.

Investment levels and exact deliverables will be finalised once event scale and costs are confirmed.

TIER 01 — PRIMARY PARTNER

Title / Presenting

INVESTMENT SCOPE: TBC

01. Headline championship naming rights recognition
02. Premier logo placement across all Debate & STEM stages
03. Keynote & grand finale award presentation
04. Flagship Young Leaders Network & STEM Lab integration

EXCLUSIVE HEADLINE POSITIONING

TIER 02 — TRACK CO-SPONSOR

Gold Partner

INVESTMENT SCOPE: TBC

01. Track co-branding (Debate, STEM Olympiad, or Showcase)
02. Prominent logo on stage backdrops, website & packs
03. On-site exhibition presence & press mentions
04. Track award presentation rights

MAJOR ARENA CO-BRANDING

TIER 03 — PROGRAMME PARTNER

Silver Partner

INVESTMENT SCOPE: TBC

01. Logo placement on official website & selected materials
02. Formal recognition during awards ceremony
03. Opportunity to nominate qualified technical judges or mentors

TECHNICAL & MENTORSHIP ENGAGEMENT

TIER 04 — CONTRIBUTING PARTNER

Bronze / Supporter

INVESTMENT SCOPE: TBC

01. Official website partner roster listing
02. Certificate of institutional appreciation
03. Acknowledgement in post-event impact report

COMMUNITY PATRONAGE TIER

TARGETED & IN-KIND SUPPORT OPPORTUNITIES (SUBJECT TO SAFEGUARDING & FAIRNESS POLICIES)

CUSTOM PARTNERSHIP SCOPES

01. STEM Kits & School Lab Grants
Microcontrollers, robotics kits, scientific calculators, or lab equipment for participating schools.

02. YLN & STEM Lab Workshop Hosting
Sponsor or host a coding bootcamp, engineering facility tour, or debate masterclass for inducted fellows.

03. In-Kind & Named Category Awards
Venue hosting, printing, educational prizes, or named awards across Debate, Olympiad, and Showcase tracks.

Budget framework and four-phase implementation roadmap.

Transparent cost stewardship paired with a gated delivery sequence from digital foundations to live event operations.

FIN-01 // HIGH-LEVEL BUDGET ARCHITECTURE

FIGURES TBC

Cost & Revenue Categories (No Invented Naira Figures)

COST 01 / VENUE & LOGISTICS
Hall hire, seating, power, security, cleaning

COST 02 / ADJUDICATION
Adjudicator & judge expenses, briefing sessions

COST 03 / MATERIALS & AWARDS
Ballots, certificates, trophies, printed packs

COST 04 / TECHNOLOGY & AV
Domain, hosting, buzzer systems, stage AV

COST 05 / SAFEGUARDING
Policy support, compliance checks & training

COST 06 / COMMUNICATIONS
Design, printing & school outreach materials

COST 07 / YLN & STEM LABS
Follow-on coding/robotics workshops & kits

COST 08 / CONTINGENCY
Dedicated buffer for unexpected operational costs

REVENUE & SUPPORT STREAMS

- **Tiered Sponsorships** (Primary support)
- **In-Kind Support** (Venue, print, prizes)
- **Grants & Institutional Aid** (Where available)
- **School Participation** (TBC; kept accessible)

PRINCIPLES: SPONSOR TRANSPARENCY • PARTICIPANT SAFETY FIRST • POST-EDITION AUDIT

OPS-02 // PHASED IMPLEMENTATION ROADMAP

GATED EXECUTION

From Digital Foundations to Annual Championship Cycle

PHASE 0 [DONE]	**Foundations:** Public website (Home, Format, Schools, Sponsors, YLN, Policies, Contact), admin shell, and core documentation set.
PHASE 1 [ACTIVE]	**Content & Governance:** Confirm dates, venue, organisers & contacts; approve Safeguarding Policy & Privacy Notice; finalise rulebook & sponsor packages.
PHASE 2 [PLANNED]	**Secure Backend:** Supabase project, admin authentication, Role-Based Access Control (RBAC), Row-Level Security (RLS), and database schemas.
PHASE 3 [GATED]	**Registration & Admin Workflows:** Unlocked strictly after Phase 1–2 safeguarding & security checklist sign-off. School applications, sponsor CRM, and motion management.
PHASE 4 [CYCLE]	**Live Operations & YLN Cohort:** Tournament execution, public-safe results publishing, Young Leaders Network induction, and post-event impact reporting.

REFERENCE: DOCS/BUDGET_FRAMEWORK.MD & DOCS/IMPLEMENTATION_ROADMAP.MD

§ 09 / MEASURABLE IMPACT & PARTNERSHIP NEXT STEPS

Partner with STDSC to invest in youth intellect and STEM capability.

Join corporate sponsors, engineering firms, educational foundations, and secondary schools shaping Surulere's flagship academic arena.

PROGRAMME SUCCESS INDICATORS (MASTER PROPOSAL § 8)

KPI-01 / SCHOOL & SQUAD REACH

Number of participating Surulere & Lagos secondary schools, debate squads, Olympiad teams, and showcase prototypes.

KPI-02 / ACADEMIC & TECHNICAL RIGOR

Measured quality of parliamentary floor debates, Olympiad analytical scores, and working STEM prototypes.

KPI-03 / YLN FELLOWSHIP RETENTION

Retention and progression of inducted students in the post-event Young Leaders Network & STEM Labs.

KPI-04 / ZERO SAFEGUARDING INCIDENTS

100% policy compliance, zero serious safeguarding or laboratory safety incidents, and full data protection.

KPI-05 / SPONSOR STEWARDSHIP & TRANSPARENT IMPACT REPORTING

Post-edition audit of funds, school STEM kit distribution verification, and published aggregate championship outcomes.

ANNUAL AUDIT

FIG 9.1 / INSTITUTIONAL PATRONAGE & ACADEMIC DISTINCTION

NEXT STEPS // HOW TO ENGAGE WITH STDSC

01. ENQUIRE
Submit Sponsor, School, or Mentor interest via the Contact Desk.

02. BRIEFING
Receive current Sponsor Package outline or School Delegation Guide.

03. ALIGNMENT
Agree track scope, STEM kit grants, or school squad registration.

04. FULFILMENT
Public partner recognition, tournament delivery & impact report.

TRANSPARENCY & PLACEHOLDER DISCLOSURE

Event dates, physical venue in Surulere, organising committee roster, official contact email/phone, confirmed sponsor emblems, and specific Naira budget figures remain explicitly marked as placeholders until formally confirmed.
